Designs Church Banners

Miss Jackie Cobb, member of the Wesleyan Service Guild, Trinity United Methodist Church, has designed and executed these church banners to be submitted in district competition among Women's Society of Christian Service organizations within the Methodist church. On the left is a banner carrying out the theme chosen for the national meeting in May in Houston, Texas, "Choose Life". She explains that women can "feed the hungry" either spiritually, as through the open Bible or physically as represented by the shaft of wheat extending from the Bible. The scales of justice at the right depict youth of today with uplifted hands asking for our help. Both banners are done in felt, the one on the left in white with red and black for contrast and the other in yellow with the silhouette of the figure of Christ in black velvet.

day) at 8:00 p. m. in the school cafeteria.

The slate of officers for the coming year is to be presented at this meeting also.

Executive Committee will meet in the library at 7:30 p.m.

We were discussing vegetable varieties with some folks recently and the question was asked why don't you list the varieties that you feel are particularly good. So for whatever the list may be, here it is: Asparagus -- Tenderette, the new Mesh Blue Lake is probably worth trying this year; Beet -- Detroit Dark Red, the new Burpee Golden does not bleed and is worth trying; Facemaker is a hybrid that I've grown with good success; Broccoli -- Green Mountain is the earliest variety; Cabbare -- select a hybrid Stonehead or Emerald Cross are good. You should try a few of the Savoy Cabbage -- Vertus Savoy; Carrot -- select a half-long variety such as Royal Chantenay or Command-er; Cauliflower -- Snow King is a very early hybrid but has a small head. Snowball is later, but has a larger head; Sweet Corn -- Seneca Chief (yellow), Silver Queen (white); Cucumber for slicing, Gemini -- it's resistant to eight diseases, for pickling SMR 15, 18, or 58; Lettuce -- leaf, salad bowl, heading variety, Imperial 44; Mustard -- Tendergreen; Green Pea -- Frosty for early pea, Wando for late peas; Sweet Pepper -- Bell Boy Hybrid; Potatoes -- Kennebec; Radish -- Cherry Bell or Comet -- White Icicle will stay mild and tender longer if you like the white variety; Southern Pea -- Queen Ann, blackeye variety, Purple Hull -- Crowder Variety; Spinach -- Viking, has a smooth leaf and is easy to wash; Summer Squash -- Zucchini or Seneca Prolific; Winter Squash -- Butternut.

You can reap extra profits from a Farm Credit loan.

Borrowing money to buy better seed and plenty of fertilizer is good farm management. Besides getting maximum yield from your soil, you replenish the plant food for next year's crop. The cost of a Farm Credit loan is small compared to the extra profits from the increased yields.
